

Amendments to the Specification:

Please add the following new paragraph on page 6, after paragraph 4:

Fig. 8 shows a container with a cosmetic composition.

Please replace paragraph 2 beginning on line 4, page 12 with the following amended paragraph:

One aspect of the present invention provides a cosmetic product system wherein a cosmetic composition 32 is packaged in a package 34 with an acoustic emissions system **10** in whole or in part, such as with a typical acoustic graph. A variety of packaging arrangements are envisioned. An acoustic graph may be incorporated as a panel segment of a carton, the latter protectively surrounding the cosmetic composition. In a variation thereof, the graph may be detachably joined to the package through a perforated or weakened construction line, or through an adhesive joinder. In another embodiment, the exterior or interior of the package may be imprinted with instructions for a consumer to sample the product with acoustic emission system **10** located at the point of purchase.
